

Data sheet				10.01.2018
Product	Dimmer module 570M		Version V2.0	
Type	570 M			
Input voltage	10,8 - 30 Volt DC			
Input current	max. 8A			
No-load current	<11mA @V-IN 10,8-30 V DC			
Output voltage	DC out => DC in			
Output power	10,8- 16 V = max. LED 80 Watt		21,0- 30 V = max. LED 160 Watt	
Functions				
via Push button	2 pin 12 V to Ground switching current 10mA			
Dim signal	5 V SS - ca. 200Hz - 800Hz		10% - 100%	
Function on push button	Short push = ON/ OFF			
	Long push = Dimming up/down			
	Keep push 2 sec. at minimum = switch to nightlight mode			
Remarks	automatic switch off @ < 10 V DC			
	Use pre fuse 10 AT for each module
